#### Bill Summary

This bill would: (A) Provide for 2 additional voting members of the commission to be appointed by the Legislature. The bill would also provide for the Secretary of the Transportation Agency, the Chairperson of the State Air Resources Board, and the Director of Housing and Community Development to serve as ex officio members without vote. (B) Require the Governor to make every effort to assure that expertise in the transportation community that has not traditionally been represented on the commission is reflected in future appointments to the commission, with a particular emphasis on stakeholders involved and engaged in, among other things, efforts to make California's transportation system more sustainable. (C) Provide that the commission's Committee on Planning is also responsible for monitoring outcomes from land development and transportation investments in accordance with the sustainable communities strategy required to be adopted by transportation planning agencies as part of the regional transportation plan. (D) Require the commission to biennially prescribe and receive a brief report from each transportation planning agency, beginning on or before October 15, 2014, describing progress in implementing the sustainable communities strategy and in attaining greenhouse gas emission reductions. This bill would require each transportation planning agency's report to include an assessment of the region's progress made, along with any challenges facing the region, with respect to its ability to implement policies and projects set forth in the sustainable communities strategy. (E) Require the annual report to include a summary of the assessment of the commission and the Strategic Growth Council of progress around the state toward state objectives of greenhouse gas emission reductions, from patterns of ongoing land development and transportation investments. (F) Require the regional transportation improvement program to include a discussion of how the program relates to the region's adopted sustainable communities strategy. (G) Require the council to identify activities, programs, and local assistance funding of its member agencies that have a significant effect on the implementation of sustainable communities strategies. This bill would require each member agency to be notified of those matters, and would require each member agency to report annually to the California Transportation Commission on steps that it has taken to ensure that its policies, activities, programs, and local assistance funding help attain greenhouse gas emission reduction targets, among other things.

#### Bill Summary

This bill makes various statutory changes necessary to implement the general government-related provisions of the Budget Act of 2013. The provisions in this bill are identical to AB 76 except that it preserves existing law relating to California Public Records Act by removing amendments contained in AB 76 that would have made portions of the California Public Records Act permissive. SB 71 provisions also preserve existing law relating to the Local Government Ethics Training Requirements by removing amendments contained in AB 76 that would have made portions of the compensation and reimbursement activities permissive for specified local agencies.

<b>BUDGET TRAILER BILL</b>	<b>Transportation</b>	<b>Status: CHAPTERED</b>
<b>SB 85</b>	<b>Bill Summary</b> Makes changes regarding the accounting treatment of various transportation-related accounts; provides a mechanism for increased security for certain transportation bonds; extends the use of miscellaneous revenue for the payment of debt service of transportation bonds; and provides a process for the relocation of utilities pursuant to the constructions of the high-speed rail project. Specifically, the bill creates a class of transportation general obligation bonds known as designated bonds, which would be a portion of the transportation general obligation bonds issued pursuant to Proposition 1B of 2006. The bill would provide for transfer of a certain amount of weight fee revenue to the Transportation Debt Service Fund for the purpose of directly paying the debt service on the designated bonds, rather than providing for payment of the debt service indirectly through reimbursement of the General Fund. These weight fee revenues would be deposited in the newly created Transportation Bond Direct Payment Account in the Transportation Debt Service Fund and would be continuously appropriated for that purpose. To the extent the transferred weight fee revenues are insufficient to pay all the debt service on the designated bonds, the General Fund would remain responsible for the remaining debt service. The weight fee revenue to be used to pay debt service on the designated bonds would generally be the amount of weight fee revenue received by the Controller from the 15th day to the last day of each month. The remaining weight fee revenue would be used to pay the debt service on other transportation general obligation bonds. This bill would provide that the state covenants with bondholders of designated bonds that it will not alter, amend, or restrict the statutory provisions in this bill that provide for the transfer of weight fees to the Transportation Debt Service Fund or the Transportation Bond Direct Payment Account, and that it will not reduce weight fees below a specified amount on and after the first date that designated bonds are issued. The bill would enact other related provisions.	<b>Recent Activity</b> From Senate: Passed (24-9) to Assembly on 05/13/2013. From Assembly: Passed (54-25) to Senate for concurrence on 06/14/2013.
